MEMORANDUM FOR: Project Finance Officer

SUBJECT: Procurement of Counter Audio Surveillance  
and Monitoring Equipment

STAT

1. In a previous memorandum to the Project Director of Administration [redacted] mention was made of the need to construct a portion of subject equipment known as a variable input coupler at the cost of \$100. A more recent estimate has now established this cost at \$110.

2. The specific item referred to above will be constructed by the Security Office Technical Staff utilizing materials purchased on the open market. Such items, as are necessary, cannot be obtained through Agency stock and a purchase through logistical channels will delay construction beyond our required date of need.

3. It would be appreciated if the necessary funds could be advanced to the Security Officer as soon as possible for the purchase of these much needed items. Full accounting will be made to your Office immediately following purchase.
